TAPS Distribution Schedule

Those students who have made either a \$6.00 or a \$3.00 payment may pick up their TAPS according to the following schedule:

Seniors—Friday, May 7
Juniors—Monday, May 10
Sophomores—Tuesday, May 11
Freshmen—Wednesday, May 12

Dionne Warwick Headlines Finale Of CDA Dance Season

On Saturday afternoon, May 8, the Modern Folk Quartet will be featured in concert. The popular and wide-traveled group will sing a wide range of songs.

Modern Folk Quartet Plans Saturday Afternoon Concert

Dag Walton and the Continentals, the Modern Folk Quartet, and Dionne Warwick will highlight the annual TAPS Junior-Senior Dance Weekend on May 7 and 8.

The Central Dance Association in conjunction with the junior class will present a formal dance Friday in the university dining hall from 9 p.m. to 1 a.m. Dag Walton and the Continentals, featuring female vocalist Betty Hughes, will provide music for the dance.

Saturday afternoon the CDA will continue the Junior-Senior Weekend with the Modern Folk Quartet in a free concert in the amphitheater from 3 until 5.

That night Dionne Warwick will be the finale for the weekend as she presents entertainment at an informal dance in the dining hall from 8 until midnight.

During the intermission of the dance Friday night the TAPS will present the beauties featured in the 1965 TAPS. The beauties will include Miss Clemson, Miss TAPS, and Mrs. TAPS.

Singers in the Modern Folk Quartet are Cyrus Faryar, Tad Diltz, Chip Douglas, and Jerry Yester. The group will sing a group of modern and old folk songs, including "Swing Down Sweet Chariot," "Sassafras," "It Was a

Very Good Year," and "Home Is Where the Heart Is." They recently recorded their first album on the Warner Brothers label.

The National Association of Record Merchandisers voted Dionne Warwick the "Most Popular Female Vocalist of 1964." Among her most popular recordings are "Wishin' and Hopin'," "Walk on By," and "Don't Make Me Over."

Pershing Rifles Gain Top Regimental Honors

Clemson University's Pershing Rifle Drill Team took top honors and set new records in the Fourth Regimental Drill Meet at Fort Gordon, Ga. On Friday, April 23, Clemson's Company C-4 won first place in four out of five events held that afternoon and second in the fifth event. First places were taken in the basic and advanced ROTC individual drill competitions and in the basic and advanced drill quizzes. The second place trophy went to the PR rifle team, who yielded the rifle match to the University of South Carolina by only

0.04 of a point out of 12 possible points.

On Saturday, the drill team marched in 22-5 competition and placed first in both the 22-5 platoon drill and the 22-5 squad drill competitions.

Saturday afternoon on the drill field Company C-4 wore traditional black uniforms with white sashes and ties, and took top honors by placing first in the fancy platoon drill. In the fancy squad drill competition, in which the PR's placed second, Clemson's fancy squad scored 11.67 against North Carolina State's score of 11.79 out of a possible 12 points.

The previous record held for the Fourth Regimental Drill Meet, 91.30 out of a possible 100 points, was broken this year by Company C-4 with a score of 97.37. This year made the eleventh consecutive year that Clemson was awarded the first place trophy for the drill meet. Also awarded to Clemson for the fifth consecutive year was the George A. Douglas Trophy, which is presented each year to the best overall company in the fourth regiment.

Represented this year at the Fourth Regimental Drill Meet were colleges and universities from South Carolina, North Carolina, Georgia, Tennessee, and Alabama.

Earlier this month the Pershing Rifles placed fourth in the national competition with 52 other colleges and universities participating in the annual National Intercollegiate Drill Meet in Washington, D. C., on April 11 during the Cherry Blossom Festival. Clemson placed first among the 18 Pershing Rifle teams in the competition.

In addition to participating in the drill meet, Company C-4 performed as a part of the Cherry Blossom Festival Parade through the streets of Washington for approximately three miles.

Borke, Matthew, and Pundt Head WSBF

WSBF, Clemson student radio, station announced the election of its senior staff for the 1965-1966 school year this week. Heading the station staff will be three directors: Jeff Borke, engineering director; John Matthew, business director; and G. C. Pundt, program director.

Other senior staff positions include Dan Bowen, continuity manager; Carl Brown, chief announcer; Dave Deem, transmitter engineer; Jim Henderson, office manager;

Lawton King, technical manager; Al Montgomery, news manager; and Dave Roof, traffic manager.

The new senior staff members will be installed at the annual WSBF banquet which will be held next Thursday

See Pictures on Page 6

night at seven o'clock. Lacy Sellars, the operations manager of WBT-FM and the quality control manager for the Jefferson Standard Broadcasting Company, will speak at the banquet. Many former WSBF staff members are expected to attend.

According to G. C. Pundt, new program director, WSBF plans to begin broadcast operations earlier than ever before, hopefully on the day that incoming freshmen arrive. Pundt said, "We feel that by signing on as soon as the freshmen arrive on campus we can aid them in the process of adjusting to the new college atmosphere and also keep them abreast of activities on campus that may interest them."

John Matthew, new business director, said, "We realize that we'll really have to work hard to have a successful year as did the re-

tiring senior staff, but we feel that the new senior staff is equal to the task. After a year of great changes in the physical lay-out of the station, we now feel familiar with the operation and can do a better job of serving the Clemson students."

From the engineering point of view, Jeff Borke, new engineering director, commented that there will not be as many major changes in equipment as in the past year, but that the engineers will devote most of their time to making the existing facilities better suited to the station's operation.

Jeff Borke is a rising junior in electrical engineering from Charleston. During the past year he has served as control room engineer.

John Matthew is a rising junior in pre-med from North Charleston. For the past year John has served in the position of office manager. In addition to his duties at the radio station, he has served as assistant secretary of the Student Senate and as speaker of the house of the South Carolina State Student Legislature. John is also a member of Phi Eta Sigma and Alpha Phi Omega and is an advisor

to the council of the Jabberwocky Society.

G. C. Pundt, who will serve next year as program director, is a rising senior from Chester majoring in Industrial Management. He served as traffic manager this year and had previously been office manager.

Dan Bowen, continuity manager for 1965-66, is a rising senior from Columbia.

Students Elect Green, Mahaffey, McGee To Be Class Presidents

Clemson students went to the polls and elected sophomore, junior, and senior class officers and senators for next year. Run-off elections were held yesterday.

In senior class elections, Jack Green was elected unopposed as senior class president. The vote in the vice-president race was the closest of the elections. Pat Lawrence was elected over Bill Zilles by a vote of 110 to 109. Both Mark Stewart and Robert Gunter were unopposed in the

voting for secretary and treasurer of the senior class. The rising senior class elected six of its 10 senators for next year. Elected were Terry England, Charles Foster, David Grubbs, Archie Harman, Bill Mays, and Larry Pettus. In the run-off election for the remaining four senate seats were Nick Baskin, Cary Beckwith, Charles King, Bohdan Kolodij, Allen Smith, and Ernest Stallworth.

Jack Green is a pre-dentistry major from Duncan. He is chairman of the Junior Folies, a brother of the Phi Kappa Delta fraternity, and a member of Tiger Brotherhood. Pat Lawrence, a ceramic engineering major from Charlotte, N. C., is a brother of Sigma Kappa Epsilon fraternity and a junior class senator.

Mark Stewart, newly elected secretary, is an industrial management major from Hartsville. Robert Gunter, an industrial management major from Wagoner, is a member of Sigma Kappa Epsilon fraternity and a member of the Y Council.

In junior elections, Randy Mahaffey won the race for the junior class presidency over Danny Speights. In the election for the vice-presidency, Charles Hill was elected over two other candidates. Jimmy Hill and David Redden were unopposed in the races for secretary and treasurer.

The juniors elected nine of its ten senators. Those elected to senate seats were Mike Click, Ryan Cobb, Mac Harley, John Matthew, Janis Moore, Susan Moore, Bob Ward, Keith Waters, and Jack Wilks. Dick Miley and David Crawford were in the run-off election for the remaining senate seat.

Randy Mahaffey is a pre-med major from LaGrange, Ga. He is a member of Tiger Brotherhood, the varsity basketball team and a member of Delta Kappa Alpha fraternity. Charles Hill, an arts and science major from Jackson, is a member of the Kappa Delta Chi fraternity, the Tiger staff, and Phi Eta Sigma.

Jimmy Hill, the newly-elected junior secretary, is an economics major from Columbia. David Redden is a mechanical engineering major from Hartsville.

In sophomore elections, Edgar McGee was elected over two other candidates for the office of president. In the

(Continued on page 5)

Dr. Blackwell To Head Honors And Awards Day

Dr. Gordon W. Blackwell, President of Furman University, will deliver the main address at the University Convocation of Clemson University's Honors and Awards Day, Wednesday, May 5.

All classes will be suspended at 12 p.m. in order that all students and faculty may participate fully in the afternoon's recognition of outstanding students.

The afternoon's events will include recognition programs for the individual schools and

colleges at 1 p.m., the University Convocation at 2:30 p.m., and a joint Army-Air Force ROTC Ceremony at 4:30 p.m.

President and Mrs. Robert C. Edwards will hold an informal reception for the honored students, their parents, and the faculty from 5:30 until 6:30 p.m. at the President's Home.

At the University Convocation in Tillman Hall Auditorium at 2:30 p.m. Father G. P. LeBlanc will give the invocation and benediction. Following the invocation university honor societies, academic honors lists and honors certificate winners, the R. F. Poole Alumni Scholarship winners, and Graduate Fellowship winners will be recognized.

Immediately following the main address by Dr. Blackwell, Dean Walter T. Cox will present The Trustees Medal, provided by the board of trustees for the best speaker in the student body to Robert Waddell Gaskin, Camden; and the Algernon Sydney Sullivan Award to Thomas James Bell, Jr., Hartsville, and Charles Anthony Arrington, Clemson.

Academic Awards will be presented by the deans of the various schools and colleges. Dean W. A. Wiley of the College of Agriculture and Biological Sciences will present the Alpha Zeta Award to Linda Jones Marganian, Woodland Hills, Calif. The National American Institute of Architects School Award will be presented by Dean H. E. McClure to Michael Henry Finch of Takoma Park, Md.

The Sigma Tau Epsilon Award will be presented by the College of Arts and Science Dean, H. L. Hunter, to Stephen Cooley King, from Williamston. Dean L. G. Rich of the College of Engineering will present the Tau Beta Pi Scholastic Award to Donald Lee Hindman, Walhalla. The Faculty Award, School of Industrial Management and Textile Science, will be presented by Dean W. D. Trevillian to Marshall White, Jr. of Rock Hill.

Dean J. K. Williams will present the following University Awards:

WSBF And Jaycees Conduct Annual Spring Safety Check

Clemson's student radio station WSBF and the Clemson Junior Chamber of Commerce will sponsor a joint automobile safety check the afternoons of May 8 and May 15.

According to Mr. James Williams, the Jaycees' head of the project, the purpose of the inspection is to help Clemson students and residents make sure that their cars are in good mechanical condition for the summer's driving. The check is free and is open to Clemson students, and to residents of the surrounding area.

The checks will be held on the road leading to the Clemson House from 1-5 p.m. both Saturday, May 8, and Sunday, May 15. All cars that pass the safety inspection will be

given a safety sticker for their windshield to certify that they have been safety checked. Each driver receives a check list showing any defective items on his automobile. Those persons with defective equipment on May 8 can have it fixed and be rechecked on May 15. WSBF staff members and members of the local Jaycees will be at the check point to inspect the cars.

"It will take only a few minutes to have a car inspected," commented WSBF program director Keys Lewis.

"We hope that everyone who can possibly bring his car by will do so. A safe car improves a person's chances of remaining accident-free."

Dekes and Chi's Earn Tie For Overall Greek Trophy

Delta Kappa Alpha and Kappa Delta Chi tied for the Inter-Fraternity Council's Overall Trophy as Clemson's eight social fraternities ended their Greek year with Greek Week 1965 at the annual Greek Week Dance Saturday night.

Jim Hambright, president of the IFC and member of Kappa Sigma Nu, was chosen Greek of the Year. Sigma Alpha Zeta's sponsor, Miss Linda Witherspoon, carried away the title of Greek Goddess;

she is a student at Columbia College and lives in Greenwood.

Included in the week of activities were a bridge tournament, pool, bowling, and ping pong tournaments. The annual Fraternity Sing was held in the Tillman Hall auditorium Friday.

Phi Kappa Delta won the bridge tournament and also top honors in the bowling tournament. Finishing first in both the ping pong and pool tournament was Delta Kappa Alpha.

Kappa Delta Chi won the first place prize in the Fraternity Sing which is annually sponsored by Mu Beta Psi, Clemson's music fraternity. Kappa Delta Chi's "Welcome Home," a medley of patriotic songs was presented last night at Junior Folies. Delta Kappa Alpha and Phi Kappa Delta tied for second place.

Greek Olympics highlighted the week's activities Saturday as the eight fraternities engaged in humorous games including the egg carry, tug-of-war, a pie-eating contest and many others. Each of the fraternities entered a chariot in a special race. Delta Kappa Alpha accumulated the most points and won the Greek Olympics Trophy. At the intermission in the dance Saturday night all the awards and trophies were given. Kappa Delta Chi received the IFC Scholarship Trophy which is presented to the fraternity with the highest overall grade point ratio.

Delta Kappa Alpha won the IFC Basketball and Volleyball Trophies while the IFC Softball and Football Trophies were won by Kappa Delta Chi. Delta Kappa Alpha won the IFC Overall Sports Award.

Hambright announced the

(Continued on page 4)

Glee Club Concludes Trip At Clemson With Concert

As a finale to their Annual Spring Concert tour, the Clemson University Glee Club and Mixed Chorus will present their Spring Concert in Tillman Hall auditorium on Tuesday, Apr. 27, at 8 p.m.

The concert will include music from Broadway shows, spirituals, and other types of music. Leading off the concert will be Bortinansky's "Cherubim Song No. 7," three spirituals "Poor Man Tazrus," "The Battle of Jericho," and "Dry Bones" will also be sung by the Glee Club.

The Mixed Chorus will combine the men and women's voices in "Almighty God, Who Hast Me Brought," "Sing, Sing a Song for Me," and a number of other selections.

Ryan Cobb, Robert Gorden, Bob Gray, Bob Tuchabough,

and Ned Schlaefler will join their voices in the Male Quintet and sing Roger and Hammerstein's "Some Enchanted Evening" and Vaughn Williams' "Down Among the Dead Men."

The Glee Club will end the concert with "Oklahoma" and "There is Nothing Like a Dame" both by Rogers and Hammerstein.

Wednesday the Clemson singers began their Spring Concert Tour with a concert at Daniel High School near Clemson. They also sang at Union High School and at Columbia College in Columbia, Wednesday.

Dreher High School in Columbia and Coker College in Hartsville hosted the glee clubs Thursday. The singers will sing at Hartsville High School and Belton High School in Belton today.

Participants in the annual Greek Week festivities attempt to pass an orange during one of many scheduled activities.

An Open Letter To The Student Body

Dear Students:

Clemson students have met with tragedy four times this year. Could this have been avoided is the question that has come to the minds of many students. Is this the work of the law of averages or carelessness? The answer to this question does not matter at this point, but what is important is that we students must realize that these same accidents or similar ones could happen to any of us.

The pressure that comes with the close of the year will undoubtedly cause unexpected reactions from some students. If these reactions take the form of reckless behavior, more tragic events such as we have already experienced this year, may occur. We do not intend or propose to dampen the spirits or the festivi-

ties of Senior Day or Junior-Senior weekend. We do, however, wish to challenge every student to use his best judgment in all his actions.

Carelessness can cause accidents and deaths. These accidents can not only damage the name of Clemson and her students, but more important they can cause grief to our families and friends.

We ask every student to think of the consequences of carelessness and bad judgment and then act accordingly.

Sincerely yours,
T. James Bell,
President of Student Body
Thomas C. Hamm,
President of the Senate
Edward K. Lominack,
Chairman of High Court
Millon Plyer
President of Senior Class

Verbal Ineptitude

Can Clemson students read?

Results of the Graduate Record Examination in verbal aptitude taken this year by Clemson seniors indicate that a significant number can't.

Average score made in verbal aptitude on the GRE by some six hundred candidates for graduation in 1965 was about the twenty-fifth percentile. That means that the average Clemson senior is in the bottom fourth of the nation's college seniors in ability to use words in reading and writing. In two of Clemson's five schools, the average score was below the fifteenth percentile. In no school was the average score above the fiftieth percentile. In fact, a number of candidates for graduation were unable to place above the first percentile.

Some students may take comfort in the fact that the average score in math aptitude was around the eightieth percentile, but the embarrassment caused by the low score in verbal aptitude seems to outweigh any pride someone might have in Clemson's high score in math.

The low score in the verbal section of the GRE may indicate something is basically wrong with the emphasis in Clemson education.

For one thing, most curricula at Clemson require five English courses (two in composition, two in literature, one in public speaking), and one or two humanities courses for graduation, and the typical Clemson student takes as few as necessary. A student has to make a D in these courses to fulfill his curriculum requirements, and most students can do this with very little effort, sometimes by merely attending class.

If the student is in, say, engineering, he faces only one or two English or humanities courses a semester. The rest of his courses are math—or science-oriented, so if the student is fairly good in math, his overall GPR is not going to be hurt much by a low grade in his English and humanities courses. He can stay in school, and eventually graduate, and still be

an ignoramus in the use of English language and knowledge of the liberal arts.

Also, scores on the Scholastic Aptitude Test in verbal aptitude for Clemson freshmen are very low. Twenty-five per cent of this year's freshman class and 33 per cent of last year's class scored below 400 on the verbal portion of the SAT. This indicates that Clemson admission policies (based on computer-predicted first semester GPRS) make it possible for a student weak in verbal aptitude to get into Clemson if his math SAT scores are sufficiently high.

An overemphasis on attaining excellence in a special field, if accompanied by a de-emphasis in attaining excellence in reading, writing and, speaking the English language, can only be hurtful to Clemson.

We feel that a college-educated man should first become skilled in the basic arts of communication, and then become skilled in a particular specialty. Apparently some Clemson students see it the other way around.

One possibility of improving the situation might be to introduce a cut-off score of 350 or 400 on the verbal section of the SAT for entering freshmen. This would weed out many students who are totally inept in the use of the English language, but it might also cut out some freshmen who could improve, but who have suffered from attendance at one of South Carolina's not-so-few inadequate high schools. This plan would be more workable when and if a junior college system is instituted in South Carolina.

Another idea, which would be workable at the present time, would be to require for graduation a C average in English courses.

At any rate it seems deplorable to have students graduate from Clemson, become living representatives of the school, and yet lack the ability to handle the English language in a manner expected of a college graduate.

LETTERS TO TOM

Students Deplore Political Apathy Seen In South Carolina Colleges, Have Comment on 'New' Clemson University Roads

Dear Tom:

The contrast between the political activity of Northern students for their strong beliefs and the total apathy of the Southern students is all too obvious.

The states of South Carolina and Virginia (along with others) are about to be conclusively presumed guilty of voting discriminations by a standard as arbitrary as mean annual rainfall. Much of this is due to activity, agitation if you prefer, of college students. And yet, from South Carolina universities and colleges we see not one whimper, much less a shout of protest.

Students worldwide have become a political force to be considered, but in the South (particularly South Carolina) students don't even know where to find the

editorial page in the campus newspaper.

Surely there are some moderate level-headed students without beards and pseudo-intellectual equipment who refuse to be buried.

Yours very truly,
E. Allen McIntyre

Speed-Breakers Or Axle-Breakers

Dear Tom:

Too long have we remained silent about matters of grave importance. Even were we not the owners of fine, precision automobiles, the spectre of these abominable strips of asphalt across the roadways of this beautiful campus would cause us extreme anguish.

Now as the tumult and the shouting dies, the last remaining vestiges of the silk smooth thoroughfares through dear old Clemson fade from our midst. How long must we be slave to these horrid, pre-historic humps in our avenues of life?

In summary, let us state: "SPEED BREAKERS MAKE US VIOLENTLY ILL."

Richard A. Lewallen
Dennis H. Cartwright
James L. Hickerson
(Graduate School)

Is Vending Co. Coup An Answer?

Dear Tom:

I believe that I can speak for a silent majority of the

High Court Finds Defendants Guilty

Case Number: 8
Charges: Violation of Clemson University Student Senate Bill No. 18, Article IV.
Specifications: The throwing of a bottle from the dormitories.
Pleading: Guilty
Findings: Guilty
Sentence Recommended: Two weeks room arrest, campus restriction for the remainder of the semester, probation for the rest of stay at Clemson.

Action: Approved
Walter T. Cox
Dean of Student Affairs

Case Number: 9
Charges: Violation of Section IV, Rule 4, and Section IV, Rule 5 of Student Regulations
Specifications: Destroying political campaign posters and action unbecoming a Clemson student.
Pleading: Guilty
Findings: Guilty
Sentence Recommended: (1) Suspension from Clemson University for one semester... sentence suspended. (2) Room arrest April 21, 1965 through exams and from August 20, 1965 through September 3, 1965. (3) Probation for remainder of stay at Clemson.

Action: Approved
Walter T. Cox
Dean of Student Affairs

CURES FOR PAYNE

Things Are Getting Tense, Old Lady, And Why? We've Got 20 Days Left To Study

By LARRY JOE PAYNE
TIGER Columnist

"Old lady, it's really getting tense. There's only about three weeks left before graduation. Only about three weeks left to start studying. Wonder why we always wait until the semester is about over before we start studying."

"With Junior Follies, Honor and Awards Day, Senior Day, Junior-Senior Banquet, and Dance, and a dance on Saturday night we are really going to be busy. You're going to Junior Follies, aren't you? That lecherous Herb Hollar has been after me to put the poison pen of yellow journalism on the emcees if they do a better job of grossing everyone out than old Herb and Rick did at Spring Sounds. I betcha a cup of dining hall coffee (hope I didn't win) that Bert Pearce and Eddie Kennet have been losing a

few hours of sleep over trying to think of some dirties to tickle the troops' ears with. They could always let the troops entertain themselves. That would probably be better than a march from Selma to Montgomery. Course they could always get a striptease folk singer.

"Just think, old lady, there's only two more issues of the Tiger left (the administration think we are left) after this one, and then the jock, Frank Pearce, can quit having nightmares. If I think of something nice to say about someone between now and the end of the semester I might break down and print it.

"A USC man finally got himself a job as a U. S. Senator. Course he had to appoint himself. Wonder how he likes having to work with an old Clemson graduate? Hey old lady, is it really true that James Farmer is after our mild-mannered Conservative Senator, Strom Thurmond? You don't know who James Farmer is? He's the director of CORE. I think it means, Colored Over Every Thing or something like that. If he really wanted to do something for good old America, he could get all of his young able-bodied supporters to join the Armed Services and volunteer for active duty in Vietnam. The KKK could also send some of their demolition experts over there to bomb Hanoi. You don't suppose the KKK in Alabama and Mississippi have been recruiting any of those commie goons from North Vietnam, do you?

"While I'm on the subject of Vietnam, old Lady, you didn't happen to be one of the ones that joined in the march on Washington to protest the American support in South Vietnam, were you? If my summer wasn't already taken up with Air Force summer camp and one session of summer school, I'd find me some good march to join.

I'm gonna feel left out when I get old and gray and haven't got anything to tell my grandchildren about. All of my friends will probably be sitting around an atomic powered fire-place telling their grandchildren about the time they marched fifty miles just to protest against not being able to buy PLAY-BOY anywhere in a town surrounded by forty-five hundred college students.

My grandchildren aren't going to have any respect for me. They'll probably think I was anti-sex or odd or didn't care about my rights as an adult citizen.

"Is it true, old lady, that the physical plant is going to erect a sign over at the back of new A dorms saying, 'Quiet, Men Sleeping' with reference to the men hanging around watching everyone else do nothing on getting the dining hall air conditioned. If things go according to the traditional way of getting things done around here, the dining hall should be air-conditioned by next Christmas, just when we need it. Did you hear about the kid that borrowed a ladder from the physical plant and told them he would bring it back in a couple of hours, and when he brought it back late they fined him four hundred dollars, made him buy the ladder and then give it back to them. I wonder what would have happened if he had borrowed a ladder and a hammer?

"Sure hope the CHRONICLE gets their last issue out before the semester ends. I guess you know they were voted the best College magazine in the nation again this semester. Those guys are doing a great job. Congratulations, CHRONICLE staff."

Students Return To Jabber And Wokky, Speed-Breakers, Rain

By FRANK PEARCE
Associate Editor

They came from near and further, and a few even further than that. They brought luggage and empty wine bottles to adorn humble rooms that had small numbers tatooed in somber fashion to each door. Many were returning from beaches littered with broken guitars and abandoned surfboards; here and there an unclaimed date still wandered. Weary, a few bleary, they peered into the distance at the faint gold glimmer. It was a sign... did it say "No Parking"?

No. It made warning of a new invention, the speed-breaker. As they cruised around the first curve, they wondered: What could it mean? Three point five seconds later the meaning was clear. As they picked up the pieces of their broken wine bottles and scraped together their luggage, their heads hung slackly while the shock was reflected in protruding eyes and lolling tongues that were beginning to swell. They crawled about in the street and eyed the odious asphalt hump that sniggered at them silently. They surveyed the litter of crumpled mufflers, mute testimony that others had almost passed this way. Then they trudged zombie fashion to their rooms.

By Friday, the shock had worn off, so they decided to go to the new house, to sit and jabber and to find out what a wokky was. As they passed the sacred tower, they heard singing from within. They entered the ancient portals as a curtain descended upon the huge expanse of stage.

Before the curtain and behind a rather shakey table sat two individuals, also shakey, because they did not know what they were doing. One was possessed of a monstrous head flicked with faint glimmers of scars. The other wore an expression of profound simplicity and no socks. They looked at the latter and decided surely he must be the UMOG. As they heard his babble and his wit, they decided that, alas, he was only half a wit, to wit, a half-wit, and undoubtedly also the DMOC. His name, they learned, was Bobo, and his friend was known as Rock the Duke, and the two of them were emceeing a great annual event known as Fraternity Sing. They stayed until the very end and they heard every act, even that of the group known as Chi's, most assuredly an outstanding group. Afterwards, it was on to the new house for jabber and wokky.

Saturday brought bright sunshine, singing birds, and eight o'clock French classes. Saturday afternoon brought sunburns and clouds came that night bearing rain for soggy Sunday all-day-long. All was as usual.

Monday they trekked once more to the haunts of learned professors. On the way, they found many day students collapsed by the way and caught up in the throes of exposure and hiking fatigue, having walked the nine miles from where it was decreed that such students must park. They stepped over them and walked on. In the distance they could hear the malicious speed breakers still sniggering and waiting.

And the week passed til Thursday came, bringing the bright sun, right flanks, harches, and sometimes brief halts for inspections and demerits. Sun prostration and dry throats were the order of the day. All was as usual.

Friday came and also quizzes from out the wazoo known as old. It was an old, old story, but they did not love to tell it. They sneaked back to their rooms and wrote little lies home to mothers and fathers; they said they were fine and grades were too, but they had to stay up this weekend, they needed to study. They mailed the small lies as they left for the houseparty. All was as usual.

Easter Vacation Brings Migration

By BILL ANDERSON, III
TIGER Feature Editor

Sun, surf, sex, sand, suds, smackey-mouth, and a coupl'a thousand hell raising college students all fuse together, forming an unrestrainable annual phenomenon known as Easter vacation.

Frantically flocking to O.D., the collegiate crowd quickly engulfed the sandy shores of the Atlantic as they came from every conceivable niche in the surrounding countryside. They came in trucks, Sting Rays, Harley Davidsons, death wagons, and hitch-hicked. But they got there because it was Easter—"Blow Out" time!

They flocked to places like "The Pad", "Sonny's", Turks, The Beach Club, The Rathskeller, all looking for the place that swings the most. Houseparties linked the beach from one end to another. Rented Hondas were ridden up and down the coast—sometimes by people who actually weren't nice.

Easter at the Beach is filled with blue-eyed bikini-clad blonds, football jerseys, blankets, beach parties, white ducks, weejuns, racing stripes, hot dogs, Healeys, high school Harrys, "tuff" bods, "spray" pants, shivering swimmers, wipe outs, greasers, Blue Ribbons, and sun-burned babes.

Then there's the Surf King—the "coolest" animal in the whole collegiate conglomeration. Look at his clothes. He wears dirty loafers, no socks (of course) Hang Ten surfer bathing suit with wax pocket, a cut-off sweatshirt, church key around his neck, a three day beard, bleached blond hair that's long and sometimes gets in his eyes. He talks surfer talk, says he'll ride the "Big Green" as soon as the "surf's up". But surf never comes up high enough for the king. He has a mild case of B.O., but hangs in there and plays it suave with the women. Says he's been around. Says he knows the beach. Says he's 169 lbs. of pure hell. But Surf King gets reeled. Bad guy gives him a Blue Ribbon. Surf King plays it cool and walks across the street. O.D. fuzz watches and smiles, picks up Surf King, takes him to jail for drinking on the streets. Now Surf King will Hang Ten in jail for a while after whipping out in front of idolizers.

The "in crowd" is constantly looking for the "action". They look for something to "turn'em on." So they swarm the beach, like bees looking for honey.

Bell, Book, And Candle Presented Tonight

Time-honored notions about witches being fiendish hideous creatures with such trappings as broomsticks, black cats, and pumpkins, were discarded by John van Druten when he wrote "Bell, Book and Candle", the Broadway Comedy hit to be presented by the Clemson Players at the Food and Industries Auditorium April 30, and May 1, at 8 p.m. For modern audiences, van Druten decided to conjure up modern witches, and his play is therefore inhabited with spell-binders that really "belong" in the 20th century.

"Times have changed," the playwright says by way of explanation. "The horse and buggy have gone, to be replaced first by the automobile then the airplane and, shortly, the jet. It seems to me that witches would have changed too."

The leading sorcerer in "Bell, Book and Candle" is Gillian, a glamorous witch to be played here by Diana Grobholz. She is young and alluring and lives in a well-furnished New York apartment, keeping her talents at witching a well-kept secret from her neighbors. Witches were not recognizable as such in the old days, and van Druten feels that their present-day counterparts deserve the same privacy.

Although she has no broom stick for night flying, Gillian does keep a cat, the only witching symbol that links her to her mythological forebears. The cat is of course not anachronistic, since people still employ them as pets to a large extent today. Even Gillian's "familiar," or witch's pet, has been modernized, however. He is not diabolic and never hisses nor arches his back.

To make other changes as authentic as possible, the playwright selected details from the witch trials of history, including those of New England, and brought them up to date. Thus there is a prankish nature to the magic indulged in by the family of

Diana Grobholz and Thomas Wright (left) and Nina Dulin and Alex Kehayes (right) go over their lines before presentation of the play "Bell, Book, and Candle," a story of modern day sorcery. (Photo by Spencer and Spencer)

sorcerers in "Bell, Book and Candle." Instead of tormenting enemies by incantations, one male witch in the play gives them sleepless nights by causing their phones to ring mysteriously at all hours. One of his colleagues, though merely a bush league witch, at least knows how to get into locked rooms without a key.

The conjuring and spookery in "Bell, Book and Candle" puts the accent on comic aspects rather than evil ones. The most potent weapon employed by witch Gillian is love. Its use ultimately destroys her powers in sorcery, proving that Love, obviously, has a magic of its own so mighty that even a witch succumbs under its spell.

Thomas Wright will be playing the part of the handsome publisher who is transformed from a somewhat staid person into a reckless lover. Nina Dulin plays Gillian's mothering and cantankerous aunt and Alex Kehayes handles the role of Gillian's meddlesome brother. Jerry Rothery has the part of Sidney Reditch, an author of a book about witches and warlocks.

Rett Rowley is the director. Rett has had a long contact with the theatre and plans to continue. He lives in New

Milford, Conn. where he started drama in high school. In 1962 he wrote and directed "Victorian Splendor," and the following year he had a character role in the production of "The Egg and I." Rett is also familiar with work in summer stock.

In 1963, at the Sherman Playhouse, in Sherman, Conn. he played the part of Bernard in Arthur Miller's "Death of a Salesman." Again in 1964 at the Sherman Playhouse he had the role of the secretary in George Gershwin's "Of Thee I Sing." Rett's last effort came here at Clemson when he wrote, produced and directed "The Idle God Trilogy." Rett is studying to be a writer and will continue to do work in summer stock.

Pops Concert

An annual Pops concert presented by the Clemson University Concert Band will be given in the Tillman Hall auditorium on Tuesday, May 11 at 7:30 p.m.

The concert will be directed by Mr. John Butler and is presented at the end of the band's annual concert tour. Selections from "Oliver," along with "Chit Chat Polka," "The Unsinkable Molly Brown," the "George Washington Centennial March," will be a few of the many musical selections presented. No admission will be charged.

No Noon Meal Tickets Next Year, Hill Says

According to Mr. Henry H. Hill of the business and finance department, the University will not sell the 55-dollar noon meal ticket for dining hall meals next year.

The change in the dining hall policy was published in the new Clemson University Catalog. The new catalog also sets starting and ending date for the meal tickets. Hill said that he did not think that students who come to school early should be allowed to eat free at the expense of the other patrons.

"Portion controls are breaking down," warned Mr. Hill. He said that he hopes students will correct this problem themselves. He also hopes that it will not become necessary to raise the dining hall fee in the future.

Air conditioning is presently being installed in the dining hall, according to Mr. Hill. The work on the installation would be complete in time for the dining hall to be air conditioned during summer school.

Angel Flight Selects Officers

Clemson's Flying Tiger Angel Flight recently selected its officers for the year 1965-1966.

Chosen to lead the Angel Flight as commander is Jeannette Hicks, a junior. Michelle Barnette will serve as executive officer; Carol Rowland, as operations officer; Carol Rostrom, as comptroller; Sue Reas, as administrative officer; and Nancy Singleton, as information officer.

Among the primary projects of the Angel Flight has been the organization of a drill team consisting of approximately twelve girls who have shown interest in such a group under the leadership of Jeannette Hicks, drill commander. Participation in the immunization program, as well as the bloodmobile, has been a significant service project of the flight.

FLICK REVIEW

By CHARLES HILL
TIGER Feature Writer
"Girl Happy"

The current comment making the rounds is that Elvis Presley's movies get progressively worse. His latest, called "Girl Happy," may well serve to document this statement. Elvis stars as a beach boy Casanova with a combo at Fort Lauderdale during spring vacation. Somehow Elvis just doesn't fit in with the college set.

At any rate, his producers seem to realize that Elvis per se is getting hard to sell, so they've included a lively set of bikini-clad beauties to help draw the crowd. Included in this batch are Shelley Fabares

(l) and Mary Ann Mobley (the former Miss America, and she's from Mississippi, suh!). Maybe if you look at them hard enough you won't hear Elvis wailing.

"Major Dundee" promises to be an entertaining, action-packed Western chase film. It may be a tad on the long side (two hours and fourteen minutes), but it should be exciting and colorful enough to keep you entertained. The cast is quite an asset too: Charlton Heston, Richard Harris, Jim Hutton, and James Coburn star. And you know it has to be good—the story was written by Harry J. Fink! No kidding!

By solving problems in astronautics, Air Force scientists expand man's knowledge of the universe. Lt. Howard McKinley, M.A., tells about research careers on the Aerospace Team.

(Lt. McKinley holds degrees in electronics and electrical engineering from the Georgia Institute of Technology and the Armed Forces Institute of Technology. He received the 1963 Air Force Research & Development Award for his work with inertial guidance components. Here he answers some frequently-asked questions about the place of college-trained men and women in the U.S. Air Force.)

Is Air Force research really advanced, compared to what others are doing? It certainly is. As a matter of fact, much of the work being done right now in universities and industry had its beginnings in Air Force research and development projects. After all, when you're involved in the development of guidance systems for space vehicles—a current Air Force project in America's space program—you're working on the frontiers of knowledge.

What areas do Air Force scientists get involved in? Practically any you can name. Of course the principal aim of Air Force research is to expand our aerospace capability. But in carrying out this general purpose, individual projects explore an extremely wide range of topics. "Side effects" of Air Force research are often as important, scientifically, as the main thrust.

How important is the work a recent graduate can expect to do? It's just as important and exciting as his own knowledge and skill can make it. From my own experience, I can say that right from the start I was doing vital, absorbing research. That's one of the things that's so good about an Air Force career—it gives young people the chance to do meaningful work in the areas that really interest them.

What non-scientific jobs does the Air Force offer? Of course the Air Force has a continuing need for rated officers—pilots and navigators. There are also

many varied and challenging administrative-managerial positions. Remember, the Air Force is a vast and complex organization. It takes a great many different kinds of people to keep it running. But there are two uniform criteria: you've got to be intelligent, and you've got to be willing to work hard.

What sort of future do I have in the Air Force? Just as big as you want to make it. In the Air Force, talent has a way of coming to the top. It has to be that way, if we're going to have the best people in the right places, keeping America strong and free.

What's the best way to start an Air Force career? An excellent way—the way I started—is through Air Force Officer Training School. OTS is a three-month course, given at Lackland Air Force Base, near San Antonio, Texas, that's open to both men and women. You can apply when you're within 210 days of graduation, or after you've received your degree.

How long will I be committed to serve? Four years from the time you graduate from OTS and receive your commission. If you go on to pilot or navigator training, the four years starts when you're awarded your wings.

Are there other ways to become an Air Force officer? There's Air Force ROTC, active at many colleges and universities, and the Air Force Academy, where admission is by examination and Congressional appointment. If you'd like more information on any Air Force program, you can get it from the Professor of Aerospace Studies (if there's one on your campus) or from an Air Force recruiter.

Parks anywhere

You can stand on your head to park on most campuses. And all you end up with is a headache. But not if you ride a Honda. It needs only as much elbow room as you with an armload of books. So you can squeeze in a little closer to that 8 o'clock class than your 4-wheel competition.

looking for a place to park on most campuses. And all you end up with is a headache. But not if you ride a Honda. It needs only as much elbow room as you with an armload of books. So you can squeeze in a little closer to that 8 o'clock class than your 4-wheel competition.

A Honda helps keep you solvent as well as sane. Prices start about \$215*. You'll get up to 200 mpg, depending on the model. And practically never need service. The star performer above is the CB-160. Just one of the 15 Honda models. With its 4-stroke, twin cylinder engine and 16.5 HP, this showoff does better than 80 mph. Look into a Honda soon. No more headaches.

See the Honda representative on your campus or write: American Honda Motor Co., Inc., Department C3, 100 West Alondra Blvd., Gardena, California 90247.

UMOC Voting Starts Monday

Alpha Phi Omega is sponsoring the Ugly Man On Campus (UMOC) Contest again this year. Does your organization have a member that will walk away with the prize?

Several campus groups have already submitted one of their members. These include the Pershing Rifles, Sigma Alpha Zeta, Phi Kappa Delta, Kappa Alpha Sigma, and the YMCA.

This contest is supposed to measure the popularity of the contestant by his ugliness. Votes are cast in the form of either money (1 cent = 1 vote) or drink bottles (6 bottles = 10 votes). The bottles must be in cartons or cases and must be taken to the APO lounge any day during the voting week at 7 p.m.

The funds received from the contest will be given to the Student Emergency Fund. This emergency fund is set up for Clemson students so that in case of some unforeseen, valid emergency, a student may receive immediate financial aid.

Candidates for the contest may vie for the title of UMOC and the list of prizes to be given. Many of the local businesses have contributed items to be given to the lucky winner. These items vary from shaving cream to an electric clock. Besides the prizes from the local merchants, Alpha Phi Omega will give the UMOC a key and a wall shingle indicating the honor bestowed on him. The sponsoring organization of the winner will receive a large engraved plaque to be kept by that organization. The UMOC will be crowned during the intermission of the Junior-

Senior dance.

Voting for the UMOC of your choice will take place during the week of May 3 to 8, from 12 to 7 p.m. The polls will be on the Loggia. To date five organizations have entered their candidates for the contest; APO is still going to accept late applications. These applications should be taken to Henry Garbelman

(C-186) or Bill Branch (D-621).

The week for casting your votes is fast approaching, so choose your candidate and hope he becomes UMOC. Everyone has a chance, even you. Always remember the slogan while casting your vote, **UMOC is the contest that measures the candidate by his ugliness.**

Honors Day Held Wednesday

(Continued from page 1)

sity Academic Awards: The American Association of University Women Award for the girl graduating with the highest cumulative G.P.R. to Linda Jones Marganian, Woodland Hills, Calif.; The Phi Kappa Phi Award for the Junior having the highest scholastic record to John Carroll, Shelley, Jr., West Acton, Mass. and the Phi Eta Sigma Award for the senior having the highest scholastic record to Stephen Cooley King, Williamston.

The College of Agriculture and Biological Sciences Convocation will be in the P and A Auditorium. Dr. W. A. Wiley, Dean, will deliver the address.

Presentation of awards for the School of Architecture will be held on the School of Architecture Patio. At this convocation The Mineral Society, local honor society will become the Phi Chapter of Tau Sigma Delta national honor fraternity.

The College of Arts and Sciences Awards Convocation will be held in the Chemistry auditorium. Dr. John E. Mil-

ler alumni professor of physics will give the address.

The College of Engineering Convocation will be in the auditorium of the Civil Engineering Building. Dr. C. M. Hersh, executive assistant for education, U. S. Army Ordnance Guided Missile School, Redstone Arsenal, ALA., will deliver the address.

Charles A. Gibson, President of Burlington Industries Cotton Mills will address the School of Industrial Management and Textile Sciences at the awards convocation in the auditorium of Sistine Hall.

A joint Army and Air Force ROTC Review and Ceremony will be held at 4:30 p.m. on Bowman Field. During the ceremony academic and military awards will be presented to outstanding Army and Air Force ROTC Cadets. Commander of the combined ROTC review will be Cadet Col. John E. Parker III of Charleston.

The Clemson University crack Pershing Rifle Drill to Team will conduct a drill demonstration beginning at 4:15 p.m. The P.R.'s are rounding out a highly successful competitive season after placing 1st in the Mardi Gras drill Competition and Taking 4th place in the National Drill meet in Washington, D. C.

TAPS Distribution

The annuals may be picked up between the hours of one and five in the afternoons of the designated days. A limited number of books will go on sale on Thursday for those who have not reserved them. They will be distributed from the Co-ed Lounge on the Loggia.

Gamma Alpha Mu Accepts 9 New Members Into English Fraternity

Gamma Alpha Mu, Clemson's English honor fraternity, announced earlier this week the selection of nine new members. Students selected were David Bundrick, Harold Coombs, Howard Fishbein, Garland Gooden, Jr., Bill Hamilton, John Kenney, John McCarter, David Milling, and Billy Walker.

The nine new members, chosen from a field of twenty-four entrants, were selected by George Chaplin, editor of **The Honolulu Advertiser**. Chaplin, along with Earl Mazo, political affairs editor of the **New York Herald Tribune**, and Harry Scott Ashmore, executive editor of the **Encyclopedia Britannica**, make up the board of judges. All three are Clemson alumni.

Harold Coombs, a freshman premed major from Scotch Plains, N. J., is a member of the swimming team.

Howard Fishbein, a senior English major from Great Neck, N. Y., is a columnist for the **TIGER**, humor editor for the **CHRONICLE**, and a member of Nu Epsilon. Fishbein is also a member of Hillel Brandeis and the Young Democrats Club.

David Bundrick is a junior English major from Cordele, Ga.

Garland Gooden is a freshman pre-med major from North Augusta. He is a member of the Tiger Band and a contributor to the **CHRONICLE**. He has been elected the **CHRONICLE**'s fiction editor for the coming year.

Bill Hamilton is a physics major from Clemson. As a sophomore last year he was a member of the G.E. College Bowl team. He is editor of the **TIGER**, a member of Phi Kappa Phi, honorary scholastic fraternity, and a member of Blue Key, honorary leadership fraternity. Hamilton holds an R. F. Poole scholarship.

John Kenney, a graduate student in physics, was graduated from St. Louis University in his home town, St. Louis, Mo. John is a member of the Soccer Club, a sports writer for the **TIGER**, mem-

ber of the American Institute of Physics, and a member of the Young Democrats.

John McCarter is a senior English major from Clover. He is the Peace Scholar, a past president of the Calhoun Literary Society, and president of the Fencing Club. He is also fiction editor of the **CHRONICLE**.

David Milling is an architecture major from Darlington. He runs a program of classical music for WSBF.

Billy Walker is a sophomore history major from Nichols. He is sports editor of the **TIGER**.

George Chaplin, judge for the contest, remarked that the entries this year were the best ever.

Fraternity candidates had to submit a minimum of two manuscripts in the field of journalism, fiction, poetry, or belles-lettres. The contest was open to all Clemson students.

Peace Corps Team Visits CU To Talk With Students

Members of the Peace Corps staff will man a Peace Corps Information Booth in the Loggia of the Student Center from 8:30 a.m. to 8:30 p.m. daily. Besides answering questions, they will have available a variety of literature on specific types of projects.

A non-competitive hour-long test will be administered at 10 a.m. and 3 and 7 p.m. daily, beginning Wednesday, May 5, and continuing through Saturday, May 8. There is no passing or failing score and knowledge of a foreign language is not required. Results are used by the Peace Corps primarily for guidance in job placement of the volunteers.

Experienced Peace Corps staff members will be available to discuss the total Peace Corps program before classes, clubs and other campus groups. A returned Peace Corps worker from Nigeria, West Africa, will also be a part of the team.

According to Peace Corps sources, the organization is still receiving requests for thousands of additional volunteers to serve in a great variety of programs in the fields of teaching, agriculture, health, public works, and community development. In addition to the many new requests for volunteers, most of the 3,000 volunteers complet-

ing their service and returning home this year will have to be replaced.

Volunteers serve for two years, including two to three months of training. They receive a modest living allowance plus a "readjustment allowance" of \$75 for each month of service.

New Senate Bill Shortens Next Year's Rat Season

Student senators passed a bill Monday night which will make rat season next fall shorter than in past years, while adding several new requirements and outlining more effective methods of enforcement of the regulations under the bill.

In other Senate action, a progress report was given by Terry Richardson, chairman of a special committee to investigate initiation of new courses desired by students—the committee outlined the plans for expansion of various departments and requested the suggestions of students for possible additions to available courses.

A bill from the General Affairs Committee was passed which will maintain the Bulletin Board for book-sale use at the beginning of each semester, dividing these boards into sections by courses and requiring the use of 3" by 6" cards for advertising used books and materials.

The committee also announced that tea bags will be made available in the dining

hall on a trial basis for students wishing to make hot tea (with the water available in the coffee machines).

A resolution was adopted outlining a method to be followed by next year's Senate in designating the setting up of an Honor Code for the university and a bill requiring publicity of the results of court cases was passed.

Resolutions were also adopted requesting that sufficient lighting be provided in the 10th dorm parking lot and that improvements be made on the number and condition of tennis courts available to students.

Finally, petitions from a number of student organizations were accepted. It was announced that incorrectly addressed mail will be routed to Mr. Rimmer at the dorm office to be sent out by the hall counselor "mail" service, and the General Affairs Committee was asked to look into improving the speed of dining hall service and into the procurement of a free local phone system for the dormitories.

Next year the rat season will last from the day of matriculation of new students until 12 midnight of the day of the first home football game (which is the rat hop dance weekend). No provisions of last year's procedure were altered and the following provisions were added:

will be Jerome Cribb, a chemical engineering major from Saluda and a rising senior.

Tau Beta Pi is a national engineering honor fraternity whose members are selected from the top fifth of the senior class and from the top eighth of the junior class. More than scholastic achievements are considered in the qualifications, however. A person must show good character and must take an active interest in his school and in other students.

1. The "Rat Pack" will contain more information and rats will be required to learn the purpose and composition of the Freshman Court and Central Spirit Committee and the general contents of the Student Body Constitution.

2. Female freshmen will not wear rat caps, but will wear purple and orange ribbons in their hair displayed to the satisfaction of female upperclassmen.

3. Climbing the flagpole during the "paint scratching" will be a freshman court offense.

4. All freshmen will be required to properly and respectfully greet all upperclassmen at every appropriate opportunity.

5. Male freshmen shall be required to fall out on the quad-range Thursday night as directed by the Central Spirit Committee for a pep rally.

6. After the last pep meeting of rat season, rats will beat the drum in front of Tom Clemson's statue until the beginning of the first football game.

7. Upperclassmen of each hall will elect an upperclassman to supervise the rats of his section and install in them traditional Clemson spirit.

Steve Wright, Senior Senator, summed up the view of the senate: "We believe that an enthusiastic approach to a shorter rat season by all concerned will produce the spirit we seek in all Clemson men."

Steve Wright, Senior Senator, summed up the view of the senate: "We believe that an enthusiastic approach to a shorter rat season by all concerned will produce the spirit we seek in all Clemson men."

Inter-Fraternity Council officers for next year. They are Neil Robinson, president; Bert Pearce, vice-president; Hank Tiller, secretary; and Billy Harper, treasurer. "I believe that this year's Greek Week was the biggest success in the history of the IFC," said Hambright. "The added events during the week made it possible for a greater number of fraternity men to participate."

VOYAGE TO THE BOTTOM OF THE BARREL

As everyone knows, thirteen-twelfths of the earth's surface is water. Thus we can see how important it is to know and understand our oceans. Toward this end American colleges last year embarked on a program to increase enrollment in oceanography. I am pleased to report that results were nothing short of spectacular: In one single semester the number of students majoring in oceanography rose by 100%—from one student to two!

But more oceanographers are still needed, and so today this column, normally a vehicle for slapdash jocularities, will instead devote itself to a brief course in oceanography. In view of the solemnity of the subject matter, my sponsors, the Personna Stainless Steel Razor Blade Co., makers of Personna Stainless Steel Razor Blades which give you more luxury shaves than Beep-Beep or any other brand you can name—if, by chance, you don't agree, the makers of Personna Stainless Steel Razor Blades will buy you a pack of whatever brand you think is better—my sponsors, I say, the Personna Stainless Steel Razor Blade Co. will today, because of the solemnity of this column, forego their usual commercial message.

We begin our study of oceans with that ever-popular favorite, the Pacific. Largest of all oceans, the Pacific was discovered by Balboa, a Spanish explorer of great vision. To give you an idea of Balboa's vision, he first saw the Pacific while standing on a peak in Darien, which is in Connecticut.

The Pacific is not only the largest ocean, but the deepest. The

Mindanao Trench, off the Philippine Islands, measures more than 5,000 fathoms in depth. (It should be pointed out here that ocean depths are measured in fathoms—lengths of six feet—after Sir Walter Fathom, a British nobleman of Elizabethan times who, upon his eighteenth birthday, was given a string six feet long. Many young men would have sunk in a funk if all they got for their birthday was a string six feet long, but not Sir Walter! String in hand, he scampered around the entire coast of England measuring seawater until he was arrested for loitering. Incidentally, a passion for measuring seems to have run in the family: Fathom's grandnephew, Sir John Furlong, spent all his waking hours measuring racetracks until Charles II had him beheaded in honor of the opening of the London School of Economics.)

But I digress. Let us, as the poet Masefield says, go down to the sea again. (The sea, incidentally, has ever been a favorite subject for poets and composers. Who does not know and love the many robust sea chanties that have enriched our folk music—songs like "Sailing Through Kansas" and "I'll Swab Your Deck If You'll Swab Mine" and "The Artificial Respiration Polka.")

My own favorite sea chanty goes like this: (I'm sure you all know it. Why don't you sing along as you read?)

O, carry me to the deep blue sea,
Where I can live with honor,
And every place I'll shave my face
With Stainless Steel Personna.

Sing hi, sing ho, sing mal-de-mer,
Sing hey and nonny-nonny,
Sing Jimmy crack corn and I don't care,
Sing Stainless Steel Personna.

I'll harpoon whales and jib my sails,
And read old Joseph Conrad,
And take my shaves upon the waves,
With Stainless Steel Personna.

Sing la, sing lo, sing o-lee-a-lay,
Sing night and noon and morning,
Sing salt and spray and curds and whey,
Sing Stainless Steel Personna.

The landlocked makers of Personna® and Personna Injector Blades wish you smooth sailing and smooth shaving—with Personna and Personna's perfect partner: Burma Shave® regular or menthol. It soaks rings around any other lather!

Trailing Greenfield's Track Team

"Boy, you haven't been here in a month!" chided track coach P. Wee Greenfield, fighting a losing battle with a grin to be gruff with yours truly. Greenfield, who takes an active concern in the coverage of his team, was upset with the publicity or lack of it for a team that he says has done "a tremendous job." "We almost sent flowers for you," Greenfield continued, "but Bradley told us last week that you were still alive. Since I've seen you last, Avery Nelson has set a school record in the broad jump (24' 5½") and is ranked ninth in the nation in the triple jump.

Greenfield, pumping smoke through the red-tipped stub in his mouth and trying hard to fight congeniality, walked to the other side of the gym carefully pulling a tape measure. "And another thing," he shouted as he began his return trip, "I've got a good bunch of boys here. I don't just mean good athletes; I mean good boys in every sense of the word. I'll put them up against anybody."

Tennis Team Bids For ACC Title

Clemson's tennis team takes on the University of North Carolina tomorrow afternoon in possibly the most important match of the season for the Tigers. UNC is undefeated in conference play and a Clemson victory would give the Tigers a three-way tie for first place in the ACC along with UNC and Maryland.

The team successfully defended their South Carolina Intercollegiate tennis title this past weekend by defeating Presbyterian college. Going into the finals Clemson and PC were tied, each having sixteen points. When the match was concluded on Sunday afternoon, the Tigers had twenty-one points and Presbyterian had twenty.

There were four individual winners for Clemson in the tournament. Tom Long defeated Roy Morgan of the Citadel to capture the number two singles spot, Turk Ormekian defeated Bill Gillespie of PC to win the number four singles, Eddie Crow beat PC's Larry Connelly for the number five singles championship, and James Ledbetter defeated Doug Haynie, also of Presbyterian, in winning the number six singles position.

This past Tuesday the Tiger netters blanked the Duke Blue Devils here at Clemson. The victory, Clemson's fifth in ACC competition against only one loss, brought the Tiger tennis team's record to a very respectable 15-3 overall.

The Far Left Makes the College Scene

From Berkeley to Brooklyn, swarms of students are joining in the noise and fire of new radical groups. The current issue of The Saturday Evening Post has the inside story of the greatest rise of the Far Left since the 1930's.

Read how some groups are almost peaceful; others are so militant that even the American Communist Party disowns them. How young leaders of the "existential radicalism" see the Cuban Revolution as a blueprint for America. Find out about new plans for protest and unrest on college campuses. How one far-out group, training its members in karate, is secretly preparing to launch a reign of terror.

Get the facts in the penetrating report of "The Explosive Revival of the Far Left," in the May 8 issue of The Saturday Evening Post.

POST
ON SALE NOW

story in by then. By the way, what kind of flowers do you prefer?"

In all fairness to Coach Greenfield, the track team,

and the tennis team, coverage on all spring sports has been below par. No alibis, although I've got a couple million handy.

Hays Cone comes in ahead to win the 440 yard relay for the Tigers.

Rifle Team Cops National Honors

The Clemson University rifle team recently copped national honors by winning the Society of Military Engineers ROTC Rifle Marksmanship competition with a total score of 1829.

Clemson was in competition with ROTC units throughout the nation. As champions the Tigers will receive a one-year rotating trophy, and each member of the team will be

The team members were L. T. Camerio, Robert Little, J. C. Yost, Ken Aaltonen and Bill Kuykendal. issued a bronze marksmanship medal.

Ten Thousand Expected For IPTAY Game Tomorrow

The seventh annual IPTAY Day, highlighted by the annual intra-squad football game, takes place tomorrow (Saturday) at Clemson and upwards to 10,000 people are expected.

The game marks the 20th and final practice session for the Tigers, who started their annual spring grid drills March 22. Kickoff for the regulation game is set for 3 p.m. with Coaches Charlie Waller, Don Wade and Whitey Jordan handling the offense and Coaches Bob Smith, Banks McFadden and Bob Jones the defense. Although Coach Frank Howard is making the division of the teams, he is expected to be just an observer during the game.

Howard plans to put his number one and four offensive and defensive teams together against the second and third offensive and defensive units. This means the No. 1 offensive unit will be against the No. 2 defensive team and the No. 1 defensive team will play opposite the No. 2 offensive.

Prior to the football game the annual Block and Bridle barbecue is scheduled from 12 noon to 2 p.m. in the little gym of the field house. A plate of smoked barbecue, barbecue hash, rice, slaw, rolls coffee and tea will cost \$1.50. Proceeds from this barbecue help the club send participants to various judging contests throughout the United States during the year.

Final activity of the day is the IPTAY Jamboree in the university dining hall at 7:15 p.m., when the top athletes in Clemson's eight intercollegiate sports will be recognized.

The Tigers for the spring game will be sophomore heavy. Altogether, there are 20 sophomores among the first 44 players. Sixteen of these

are up from last year's freshman, with the other four red shirts.

Admission to the game is either by a 1965 IPTAY membership card, or \$1.25 for adults and 50 cents for children.

Students Elect

(Continued from page 1)

race for vice-president, Bo Chinnners and Butch Drakeford were in the special runoff election Thursday. Also in a run-off election were Benny Clark and Jack Erter for the secretary of the sophomore class. Jimmy Padgett was elected as sophomore treasurer.

In the senate elections Jerry Addy, John Dickerson, Jim Engrams, Bill Johnson, Senny Roberts, and Chuck Whitney were elected. In the special election yesterday, Reuben Clark, Harry Degear, Robert Faries, Robert Kaulakis, Ronald Spata, and Joey Crosland vied for the remaining four senate positions.

Edgar McGee, a civil engineering major from Orangeburg, is a member of the football team and Numeral Society. Jimmy Padgett, the new sophomore treasurer, is a pre-dental major from Columbia.

Rising sophomores elected Butch Drakeford as vice-president of their class next year as run-offs for class elections were completed yesterday. Jack Erter was elected sophomore secretary. Reuben Clark, Harry Degear, Robert Faries, and Joey Crosland were elected sophomore senators.

In senior run-offs, rising seniors chose Nick Baskin, Charles King, Alan Smith, and Ernest Stallworth as senate members.

Rising juniors elected Dick Miley to fill the junior class's tenth senate seat.

Baseballers Vie At U.N.C. Today

By SAMMIE CARROS
TIGER SportsWriter

With only about two weeks remaining in the 1965 ACC baseball season the Clemson Tigers travel to Chapel Hill today to do battle with the UNC Tar Heels. In their previous encounter this year the Tigers eked out a 6-5 victory.

The Tigers have been playing both hot and cold ball recently. During the Easter holidays the team traveled north to play Maryland and Virginia twice. Thanks to some tough pitching the Terps took both games, 6-1 and 2-1. The Tigers recovered to take a 5-2 decision over Virginia, only to be shutout in the second game, 1-0.

Clemson returned home April 23 and played the Duke Blue Devils. Bill Parmar pitched a nifty seven hitter as the Tigers put the Blue Devils down to the tune of 10-2. Jim Liccardo was the loser for Duke. Rusty Adkins, Lawton Cowart, and Parmar collected three hits each for the winners. The Tigers also managed to put together three double plays.

The following Saturday, April 24, Clemson defeated Wake Forest 5-1 as Charles Watson held the Deacons to two hits and one run in a sparkling 5½ inning relief

stint. Second baseman Tony Jackson went four for four with two doubles a single, and a homer. Lawton Cowart, George Sutton, and Jackie McCall also hit home runs for the Tigers.

This past Monday Florida State came to Clemson for a single game that day and a double header on Tuesday. The Tigers took the Monday game 9-8 on Eddie Barbary's run-scoring single in the bottom of the ninth. Dale Smith, who pitched the last three innings, gave up no hits, no walks, and struck out two, was credited with the win. Ellis Dantzler, Rusty Adkins, and Jackie McCall hit homers for Clemson.

In the first game on Tuesday both teams emptied their benches and had an old-fashioned slugfest. Trailing 9-11 in the top of the ninth, FSU won on a grand slam off losing pitcher Charles Watson. The final score was 13-11.

The second game of the twin bill was called after five innings with FSU winning 16-3.

The Tigers' overall record now is 12-9-1 and 4-4 in the ACC with six conference games left. Clemson's lone remaining home game is this Tuesday with South Carolina's Gamecocks.

you'll want several pair*

FARAH® Walk Shorts

You don't need an engineering degree to figure out why this cordless shaver costs a bit more.

All you need are whiskers.

Just run the cordless REMINGTON® LEKTRONIC II Shaver through your beard. Then feel for whiskers.

This alone will tell you why our shaver costs a bit more. Still, if you want more facts, read on.

The LEKTRONIC II has the biggest shaver head in the business. With 756 working slots, things get done in a hurry.

On top of the shaver head are 4 tiny rollers. They make sure only whiskers disappear. Not skin. 348 cutting edges take care of that fast disappearing act. Honed from surgical high-carbon steel, these cutters start sharp, stay sharp.

Add to this the sideburn trimmer: a straightedge tucked under the head case that gives you a neat, finishing touch.

Then there's the cordless feature. Works on rechargeable energy cells.

(Also works with a cord, if you forget to recharge.) So you can shave where and when the itch hits you. Frees you from sockets and wet sinks.

So, you can easily see why it costs a bit more. Even if you can't add or handle a slide rule.

"BEST EVER" PREDICTED

Senior Day Frolics Held Thursday

"Senior Day 1965 on May 6 should be the greatest one that's ever been staged at Clemson," predicted Millon Plyler, senior class president. "We have a well-balanced, fun-filled day of activities for this year's seniors which will be highlighted by a folk concert in the amphitheater with the Townhouse Three from UNC and a dance Thursday night at the National Guard Armory featuring the Fabulous Five."

"We're planning on bringing girls to Clemson from Brenau, Lander, Erskine, Furman, and Anderson College so that everyone who needs a date will have one," he stated.

Plyler stressed that no students are to tamper with or loiter around any of the construction equipment or sites on campus.

"I hope we can have the best Senior Day ever held at Clemson and accomplish this

in a dignified manner. We also hope that our school will be spared of any more tragedies," he continued.

Senior Day will be held Thursday, May 6. Seniors who sign up on the Loggia Thursday morning between 8 a.m. and 12 noon will be given class cuts from 12 noon Thursday until 12 noon Friday. The registration fee is \$1.25.

SCHEDULE OF EVENTS
MAY 6, 1965
 8:00-12:00—Registration at Loggia.
 12:00-1:00—Lunch in dining hall. Seniors will have reserved section.
 1:15-2:30—Amphitheater Concert - Townhouse Three.
 3:00-4:30—Field Day Events —YMCA recreational area on lake. This area is across bridge on left. Swimming with life-guards on duty.

4:30-5:30—Return to campus and clean up.
 5:30-7:00—Picnic supper at west end of stadium.
 8:00-12:00—Dance at National Guard Armory featuring the Fabulous Five.

SENIOR DAY RESOLUTIONS

1. Any property destroyed will result in expulsion.
2. Disorderly conduct in the dormitories or on campus will bring expulsion. This includes downtown Clemson and surrounding areas.
3. Men will be held personally responsible to the senior class for any property damage.
4. Any tampering with university property or equipment will bring expulsion.
5. Any underclassmen taking part in Senior Day activities will be expelled.
6. There will be no open display of alcoholic beverages.
7. The senior class accepts full responsibility for planning Senior Day and for the conduct of all students and the punishment of any violators.
8. In accepting this responsibility, the senior class alone will have the authority to turn in violators.
8. Any act against the betterment of Senior Day and not covered in the above regulations will result in expulsion.

WSBF Elects Officers

(Continued from page 1)

ing sophomore from Knoxville, Iowa, majoring in civil engineering. During the past year he has served as assistant continuity manager.

Carl Brown, the new chief announcer, has served as the producer of "Sounds of the Twentieth Century" for the past year. He is an agricultural engineering major from Aiken.

Dave Deem, next year's transmitter engineer, is a rising junior in electrical engineering from Rosemont, Pennsylvania. He has previously served on the continuity staff and as assistant transmitter engineer.

John Dozier, production manager for next year, is a rising junior from Florence majoring in English. During the past year he served as record librarian.

Jim Henderson, next year's office manager, is a rising junior majoring in pre-med from Elwood, Illinois. During the past semester he has served both on the business staff and with the program staff as an announcer and as a member of the local news staff.

Lawton King, technical manager for next year, is a senior in electrical engineering from Bishopville. For the past three years Lawton has served as Engineering Director.

Al Montgomery, next year's news manager, has served as assistant news manager during the past year. In addition, he has directed the efforts of the local news staff. Al is a rising senior in chemistry from Columbia.

Dave Roof, the new traffic manager, is a rising chemistry senior from Greenwood. He has served as assistant traffic manager for the past year and has previously been the record librarian.

Program staff assistants for next year have also been named. Tony Scialdone, a sophomore Applied Math major from Seneca Falls, New York, will be the assistant traffic manager and also the producer of "Sounds of the

Twentieth Century." Jeanette Hicks, a rising sophomore from Mannheim, Germany, majoring in English, will serve as next year's assistant news manager. Richard Bellflower, a rising sophomore in mechanical engineering from Murphy, North Carolina, will serve as record librarian for the next year.

Assistant positions on the engineering staff were also announced. John Frederiksen, a rising sophomore from Toms River, New Jersey, majoring in electrical engineering, will serve as an assistant control room engineer. Bill McNew, a rising junior from Ft. Lauderdale, Florida, majoring in electrical engineering, will serve as maintenance and service engineer. Ken Parker, a rising junior majoring in electrical engineering from Savannah, Georgia, will continue in his position as supervisor of engineering training. John Shouse, an electrical engineering major from Clemson and a rising sophomore, will serve as the second assistant control room engineer. Tommy Sinclair, a rising sophomore from Bishopville in electrical engineering,

has been chosen as next year's assistant maintenance and service engineer. Skip Williams, a rising sophomore majoring in electrical engineering from Charleston, will be next year's assistant transmitter engineer.

CDA Dance

(Continued from page 1)

Tickets will be sold next week in the dining hall. Prices are three dollars for the dance Friday night and four dollars for the dance Saturday night. The concert Saturday is free.

ALL CLUBS NOTE:

Petitions Due Next Week

As of today, April 28, 1965, the following student organizations have failed to file a petition for recognition as requested by the Student Government and by the Office of Student Affairs. If an organization has not filed such a petition with the Office of Student Affairs by Friday, May 7, 1965, that organization stands to lose all special

Campus News Round-Up

Block And Bridle

The Clemson University Block And Bridle Club will hold its annual Spring Barbecue on May 1 in the little gym. The barbecue will be held between 12 and 2 p.m., preceding the Orange-White inter-squad football game. The cost is \$1.50.

Car Wash

A car wash, sponsored by a group of Clemson University coeds, will be held Tuesday, May 4, and Friday, May 9, in front of the girls dormitory between the hours of 12 and 5 p.m. The purpose of the car wash is to provide a

scholarship for a Clemson University woman.

Architecture Lecture

Dr. Mario Salvadori, professor of civil engineering assigned to Columbia University's School of Architecture, will speak at Clemson University at 8 p.m. Friday, April 30, in the School of Architecture auditorium. The public is invited to hear his talk on "Structures in Architecture."

Summer Apartments

Married students and faculty members who wish to sub-let their University owned apartments or pre-fabs during the summer sessions are requested to contact the Housing Office as soon as possible. Persons interested in renting aforementioned units are also requested to contact the office.

I.M. Seminar

James F. Lincoln, chairman of the board, Lincoln Electric Co., Cleveland, Ohio, will address an industrial management seminar at Clemson University at 2 p.m. Thursday, May 6, in Sirrine Hall auditorium.

Jr.-Sr. Banquet Scheduled Next Week In Dining Hall

Rev. Hubert A. (Baldy) White, a well-known Southern humorist and after-dinner speaker from Atlanta, Ga., will highlight the annual Junior-Senior Banquet on May 8, at 7 p.m., in the university dining hall.

The Junior-Senior Banquet is presented annually by the junior class for all of the seniors and juniors and their dates as a part of the annual Junior-Senior TAPS Weekend.

According to Joe Waldrep,

president of the junior class, the banquet will cost \$3.50 a couple. Seniors who bought tickets as juniors last year will be admitted free of charge, and all juniors who buy tickets will be admitted free of charge to the Junior-Senior Banquet next year. Tickets will be on sale in the dining hall next week.

Favors will be given by the juniors as "reminders of the special weekend," stated Waldrep.

 City _____ State _____ Zip _____

It isn't easy to become an officer in the United States Army. Only the best young men are selected. The training and course of study are demanding.

But if you can qualify—and you should find out if you can—you will receive training which will put you a step ahead of other college graduates. Army ROTC training will give you experience that most college graduates do not get—in leading and managing other men, in organizational techniques, in self-discipline and in speaking on your feet. This kind of experience will pay off in everything you

do the rest of your life.

Army ROTC has a new program designed specifically for outstanding men who already have two years of college, and plan to continue their college work. During your junior and senior years in this program, you will receive \$40 per month. Want to find out more about the program? Simply send in the coupon below, or see the Professor of Military Science if you are now attending an ROTC college. There's no obligation—except the one you owe to yourself.

If you're good enough to be an Army Officer, don't settle for less

ARMY ROTC

Box 1040, Westbury, New York 11591

Gentlemen: Please send me information on the new 2-Year Army ROTC Program. I am now a student at _____
